

VaxAmerica Now Booking Workplace Flu Clinics

With flu outbreaks already making headlines, clinic dates are still available but filling quickly.

September 2013

Temecula, Calif.

VaxAmerica, the nation's choice for convenient, safe and reliable vaccine clinics, announced today that it still has reservation dates available for its popular workplace flu clinic program and can accommodate booking vaccination clinics immediately.

"Helping employees stay healthy is a smart business move at any time of the year, but it's especially critical during flu season," says Nancy Creadon, vice president of VaxAmerica. "Providing employees with onsite flu clinics aids in keeping the workplace healthy and can potentially reduce absenteeism. Making it easy for employees to get their flu shots without taking time off work or using valuable weekend hours to find a community clinic makes good business sense."

Launched in 2008, VaxAmerica is a program of FFF Enterprises, the nation's largest and most trusted distributor of flu vaccines. VaxAmerica provides customers with hassle-free repayment solutions for insured employees; flexible online or in-person scheduling; and complimentary marketing and promotional materials to ensure clinic success. VaxAmerica supports its flu clinics with skilled, licensed clinicians to safely administer vaccine and answer questions. Companies who book through VaxAmerica are also assigned a knowledgeable clinic advisor to assist with planning from start to finish.

Employers interested in securing one of the remaining available clinic dates are encouraged to reserve as soon as possible by calling (888) 444-8522. More information is also available at www.vaxamerica.com/ContactUs.html.

About VaxAmerica

VaxAmerica, a program of FFF Enterprises, Inc., is a nationwide network of care sites enabling the safe, easy and convenient administration of preventive vaccines—even those hard-to-get—to individuals or groups at a convenient location near to them. Known for its national reach and local touch, VaxAmerica has simplified the vaccination process to create cost-effective solutions for patients, healthcare providers and health plans. For more information about VaxAmerica, call (888) 444-8522 or visit www.Vaxamerica.com.
