

# FFF Enterprises Welcomes Jon Hahn as Vice President, Information Systems

April 2014

Temecula, Calif.

FFF Enterprises, Inc., the nation's largest and most trusted distributor of plasma products, vaccines and critical-care biopharmaceuticals, announced the appointment of Jon Hahn to the position of Vice President, Information Systems. With more than 30 years of experience in varied information systems and strategic technology, Hahn has a distinguished career track record building high performance IS platforms on a global scale.

"FFF is expanding its presence nationally and we are confident that Jon will play an influential role in our future success," said Patrick M. Schmidt, president and chief executive officer, FFF Enterprises, Inc. "We are thrilled to have him as part of our leadership team."

Prior to joining FFF, Hahn served as the Vice President and CIO for Semtech Corporation, a publicly traded fabless semiconductor business with global operations. At Semtech, Jon successfully executed the technology roadmap that transformed the company to scale and double its revenue in four years. Prior to Semtech, Hahn served as the Vice President and CIO for Telmar Network Technology, Inc., a privately held global telecommunications repair and spare parts management service provider to many of the world's largest carriers, including AT&T, Verizon and Telefonica in Europe.

Hahn holds a Bachelor of Science degree in Computer Science from the University of California, Irvine, and a Master of Science degree from University of California, Los Angeles.

## About FFF Enterprises, Inc.

FFF Enterprises is the largest and most trusted distributor of plasma products, vaccines and other specialty pharmaceuticals and biopharmaceuticals in the U.S. Founded in 1988, FFF is now in its 26th year with more than a billion dollars in annual sales and a flawless safety track record. FFF has taken a leadership position

in regard to supply chain safety and innovation, setting new standards and pioneering industry firsts. FFF's commitment to Guaranteed Channel Integrity™ ensures that products are purchased only from the manufacturer and shipped only to healthcare providers, with additional steps taken to safely store, handle and ship products to ensure patient safety is never compromised. Together with its Verified Inventory Program-Consignment (VIPc)™ that provides real-time inventory management utilizing advanced RFID technology, FFF's proprietary systems, Verified Electronic Pedigree™ and Lot-Track™, provide verification of FFF's secure channel. In addition, FFF's MyFluVaccine ([www.MyFluVaccine.com](http://www.MyFluVaccine.com)) and VaxAmerica ([www.VaxAmerica.com](http://www.VaxAmerica.com)) are revolutionary vaccination programs that have added a new level of safety, convenience and reliability for both healthcare providers and consumers.
