

**CHOOSE YOUR
PREFERRED FLU
VACCINE OPTION
TODAY:**

INJECTION.

Traditional flu shot is for everyone 6 months and older. Protects pregnant women and their newborns.¹

INTRANASAL.

Nasal spray is great for those with needle phobia. Approved for healthy people ages 2–49 years.¹

Ask your physician or pharmacist about getting your flu vaccine today!

did
you?
know

All ages are vulnerable to the influenza virus and the Advisory Committee on Immunization Practices recommends annual vaccination for patients 6 months and above.²
